

Dear folks at USDA

Just a few lines to plead
for fairness. Please do all
you can to set up a new way
to price our milk. Any other
business figures in their cost of
production to set their retail
price. There is no reason farmers
couldn't do the same. We have
children coming that we need
to support. And also do away
with the make allowance.
The co-ops could do without
We do. Thanks for listening!
