## Notice to Stakeholders and Interested Parties

**To:** Stakeholders and Interested Parties  
**From:** Miles McEvoy, Deputy Administrator   
**Subject:** Discontinued Use of Summit Organic Products  
**Date:** January 31, 2011

In 2009, the National Organic Program (NOP) conducted an investigation of a complaint concerning Summit 14, 10 and 7 Organic Nitrogen Soil Supplements manufactured by Summit Organic, Inc.

Based on a review of information obtained from the manufacturer and reports of onsite inspections of the production facility, the NOP concluded that the manufacturer had not provided sufficient information to support Summit 14, 10 and 7 Organic Nitrogen Soil Supplements' compliance with the NOP regulations.

Therefore, all use of Summit 14, 10 & 7 Organic Nitrogen Soil Supplements has been prohibited since July 27, 2009. Use of these products will constitute the use of a prohibited substance which could jeopardize the organic status of operations, including land and products.

**Document Control:**

This document supersedes "Discontinued Use of Summit Organic Products" dated July, 27, 2009, which is now obsolete.
